Neisseria meningitidis

A

P

I love being inside closed places with unvaccinated people.

D

MENINGITIS

A

I look like a snowman sitting on your brain.

Tricophyton rubrum

A

P

I love hiding in the midst of the toes, especially when they are humid and wet!

D

ATHLETE'S FOOT

A

If people could see me, they would say I look like a camouflaged octopus!

Poliovirus

A

P

I hate vaccine campaings with that Sabin's oral vaccine!

D

POLIOMYELITIS

(INFANTILE PARALYSIS)

A

I am a virus which looks like a handicap robot with many corners!

Rabdovirus

A

P

Vaccinated dogs bother me when I'm traveling.

D

RABIES

A

I look like a devil when I get rabies.

P

T

I use droplets that people spit to move myself from one human to another...

T

D

When I swim with the droplets I reach the MENINGES as quickly as I can.

P

T

I love sunbathing at the swimming pool and bathrooms that are wetty!

T

D

+

P

T

I get in through the same door as food!

T

D

I'm a kill joy villain accused of terrorizing children by PARALYSING them!

P

T

I use my host's teeth to get where I want on time!

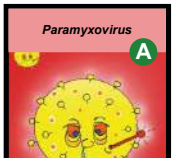
T

D

-t+ -rd+ -che-e

Paramyxovirus

A



P

If everybody takes this MMR vaccine I'll lose my house!

D

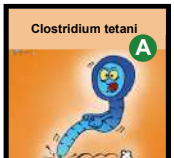
MEASLES

A

I'm round and I get red spots, specialy when I have fever.

Clostridium tetani

A



P

"Triple Trio" gets into our nerves! My friends Diphtheria and Whooping Cough are annoyed when Triple Trio is the center of attention.

D

TETANUS

A

People say I have a big head like an astronaut. Do you really think I do?

Toxoplasma gondi

A

P

If people take good care of sand pits by covering them, how will I ever have the chance to attack my victims?

D

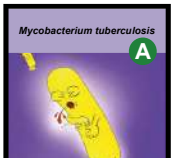
TOXOPLASMOSIS

A

I look like an upside down comma. I keep dreaming of feces where I can rest.

Mycobacterium tuberculosis

A



P

The name of the vaccine they use aginst me has three letters. Find out which ones they are!

D

TUBERCULOSIS

A

If you listen to part of my name you might think they're talking about that singer Michael...

P

T

When everybody is very close, I'm very quick and smart.

T

D

P

T

My favorite transports are: not pasteurized milk from sick cows and spit from sick people.

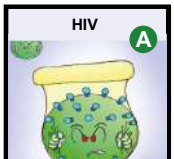
T

D

+R+ -BE+ -CK+SIS

HIV

A



P

I'm stuck in a real hefty kind of preservatives...Darn it!

D

AIDS

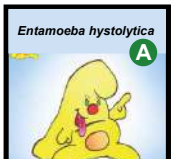
(Acquired Immune Deficiency Syndrome)

A

I am well known by three letters!

Entamoeba hystolytica

A



P

Soap and treated sludge are my mortal enemies!

D

AMEBIASIS

A

I use the movement of my body to capture nutrients. I look dumb but I'm very smart!

Candida albicans

A

P

Mommy's care will make me vanish!

D

CANDIDIASIS

A

Look at my cute cubs budding around me: aren't they pretty?

Varicella zoster

A

P

I cause no harm to little children, only tiny little wounds. I'm bad to unvaccinated adults.

D

CHICKENPOX

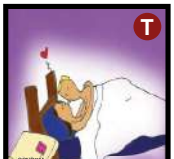
A

What a terrible itch!

P

T

...making love without a condom.



T

D

I'm considered the most evil disease of the century!

P

T

Contaminated water is my favorite place to swim and rest.

T

D

-hmr+ -cicle+ -ctle + is

P

T

I can live very well with my host... I turn out to be a problem when they lose their defense weapons and become weak.

T

D

I wonder why they say I'm candid.

P

T

I jump from one human to another!

T

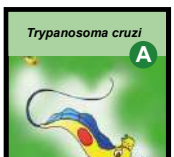
D

+ P +

- B

Trypanosoma cruzi

A



P

If they exterminate the kissing bug I'll be completely lost!

D

CHAGAS' DISEASE

A

I'm very clever. I can get to one's heart when an opportunity knocks.

Vibrio cholerae

A

P

Soap, chlorox, vinegar and heat are my rerrocious enemies!

D

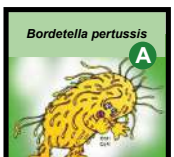
CHOLERA

A

I'm loosing a lot of water and energy. What a terrible stomach ache!

Bordetella pertussis

A



P

I have two very close friends: Clostridium and Coryne, our toxic products, when treated well are always together to protect humans against diseases as tetanus, diphteria and whooping cough.

D

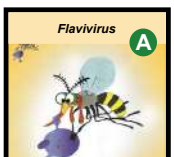
WHOOPING COUGH

A

I've never learned other words, only cough...cough...cough

Flavivirus

A



P

If people get rid of all stagnant water, my host Aedes will not survive. Then I'll be lost!

D

DENGUE FEVER

(BREAKTONE FEVER)

A

I enjoy flying with my winged pilot, his name is Aedes.

P

T

I hide in my host's feces but I change my address when it bites somebody.

Influenza virus

A

P

I'm a deadly virus which weakens old and unprotected humans!

D

FLU

A

I'm a very "influential" virus and in all sense sociable!

HBV

A

P

Oh! This new vaccine prevents me from visiting my favorite target! It looks like a sombrero but it is a lovely liver!

D

HEPATITIS B

A

I'm a virus with big cheeks.

Mycobacterium leprae

A

P

If everybody starts washing hands with soap and water, I will definitely lose this game!

D

LEPROSY

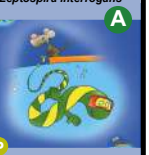
(Hansen's disease)

A

Don't I look like Superman?

Leptospira interrogans

A



P

Garbage in the carbage can? Where will the rats go? And what about me? The rain water will wash me right down the gutter!

D

LEPTOSPIROSIS

A

I'm a great diver!

P

T

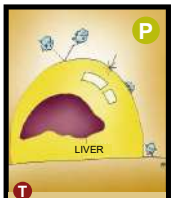
I could be called the "A-tichoo" virus!

T

D

What makes you a-tichoo: clue, blue, glue or flu?

P



T

Moving from one place to another is easy: I take the bloodstream just like my friend HIV.

T

D

The hepatitis B vaccine can protect you!

P

T

When I want to escape I like to go through the nose!

T

D

When I was discovered I was named Hansen's bacillus.

P

T

I'd rather live in rats but when they pee I get a ride and swim in the flood water.

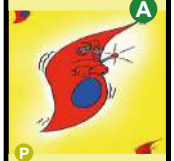
T

D

If you don't want to have leptospirosis, stay away from flood water!

Plasmodium maraliae

A



P

Wow! I've just escaped from that poison! Now this mosquito net is keeping me out, I'll give up.

D

MALARIA

A

Fever, sweating and trembling! I'll probably lose weight!

P

T

Where is my friend Anopheles? It used to give me rides.
