*Neisseria meningitidis*

A

P

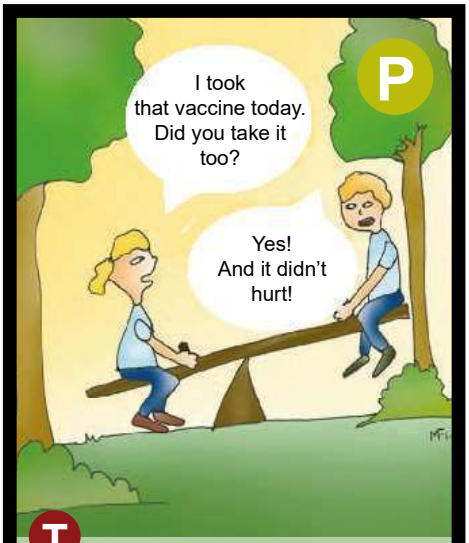
I love being inside closed places with unvaccinated people.

D

# MENINGITIS

A

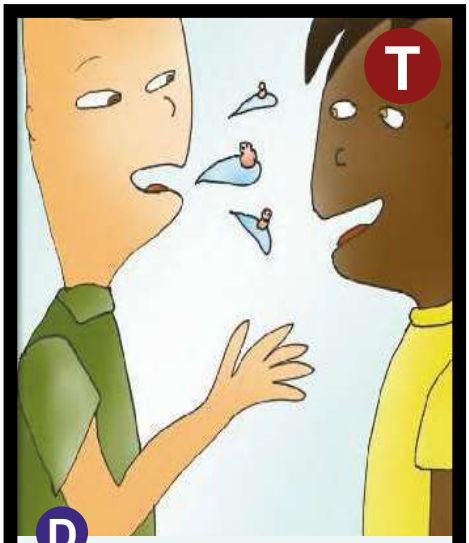
I look like a snowman sitting on your brain.



P

T

I use droplets that people spit to move myself from one human to another...



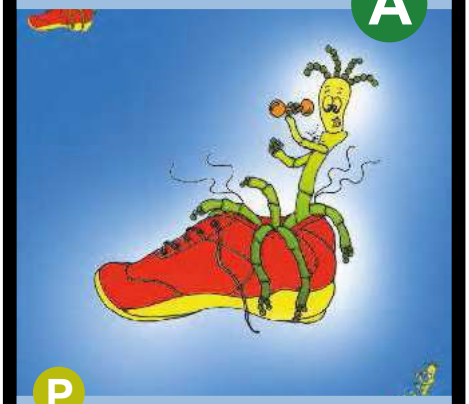
T

D

When I swim with the droplets I reach the MENINGES as quickly as I can.

*Tricophyton rubrum*

A



P

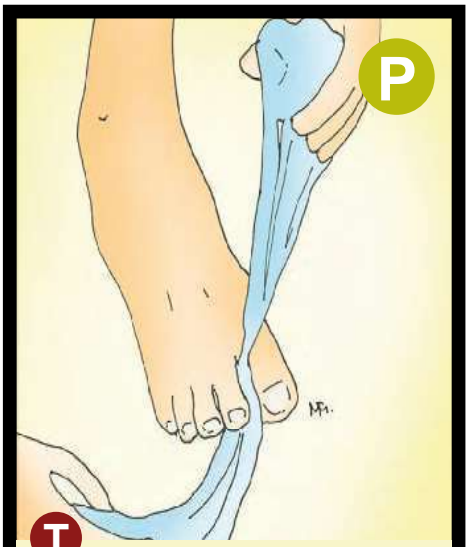
I love hiding in the midst of the toes, especially when they are humid and wet!

D

ATHLETE'S FOOT

A

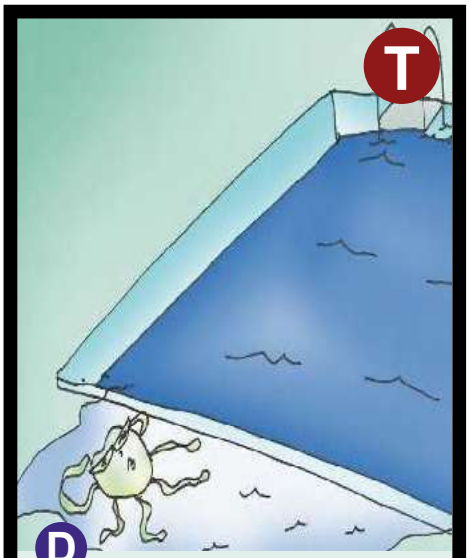
If people could see me, they would say I look like a camouflaged octopus!



P

T

I love sunbathing at the swimming pool and bathrooms that are wetty!



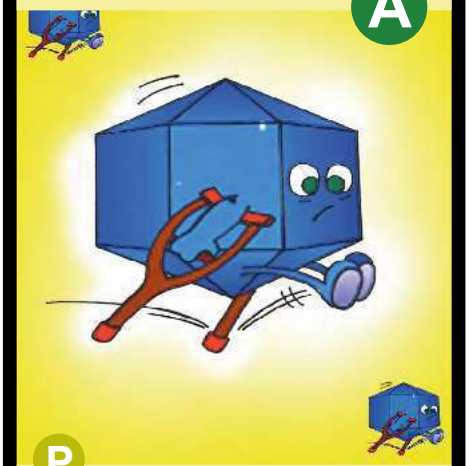
T

D

+

## Poliovirus

A



P

I hate vaccine campaings with that Sabin's oral vaccine!

D

## POLIOMYELITIS

(INFANTILE PARALYSIS)

A

I am a virus which looks like a handicap robot with many corners!

P

T

I get in through the same door as food!

T

D

I'm a kill joy villain accused of terrorizing children by PARALYSING them!

Rabdovirus

A

P

Vaccinated dogs bother me when I'm traveling.

D

RABIES

A

I look like a devil when I get rabies.

P

T

I use my host's teeth to get where I want on time!

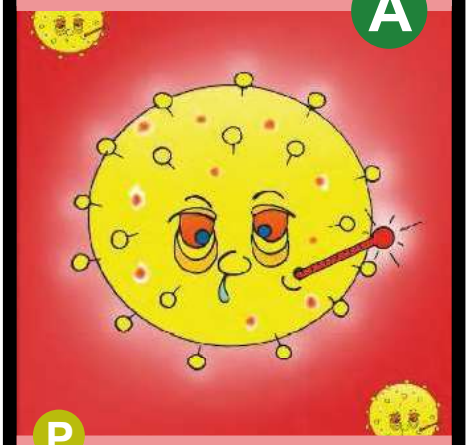
T

D

-t+ -rd+ -che-e

*Paramyxovirus*

A



P

**If everybody takes this MMR vaccine I'll lose my house!**

D

# MEASLES

A

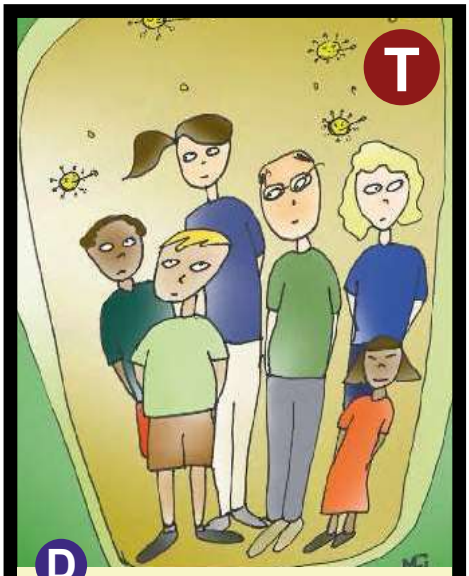
**I'm round and I get red spots, specialy when I have fever.**

P

T

**When everybody is very close, I'm very quick and smart.**

T



D

**- l +** **- epy + s**

## Clostridium tetani

A

P

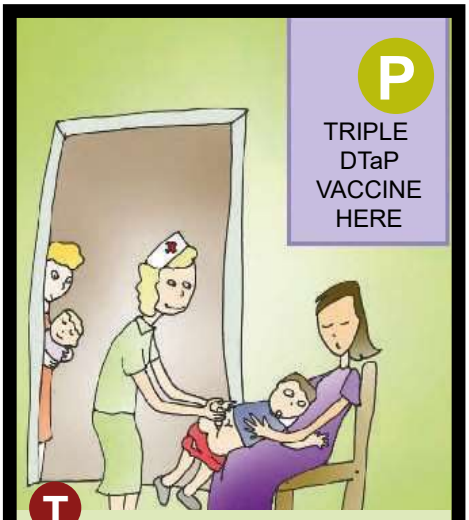
“Triple Trio” gets into our nerves! My friends Diphtheria and Whooping Cough are annoyed when Triple Trio is the center of attention.

D

## TETANUS

A

People say I have a big head like an astronaut. Do you really think I do?



T

I keep my habitat in the middle of the earth’s surface with rusty nails and horse manure.

T

D

10-n+  + -b

*Toxoplasma gondi*

A

P

If people take good care of sand pits by covering them, how will I ever have the chance to attack my victims?

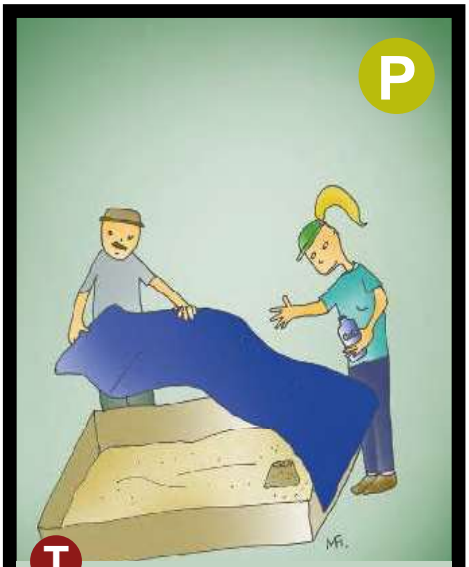
D

# TOXOPLASMOSIS

A

I look like an upside down comma. I keep dreaming of feces where I can rest.

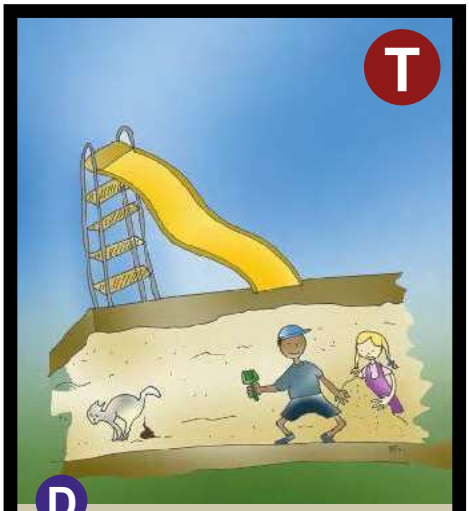
P



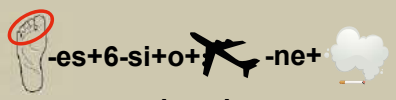
T

I love hiding in the feces of cats and dogs!

T



D

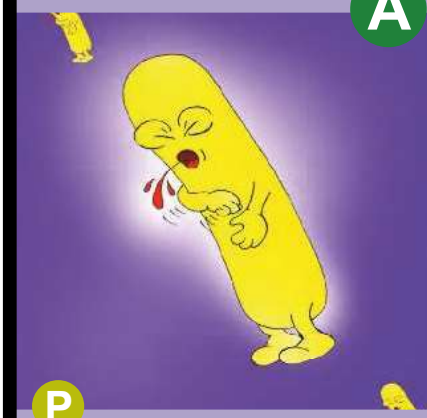


-es+6-si+o+ -ne+

-ke+sis

*Mycobacterium tuberculosis*

A



P

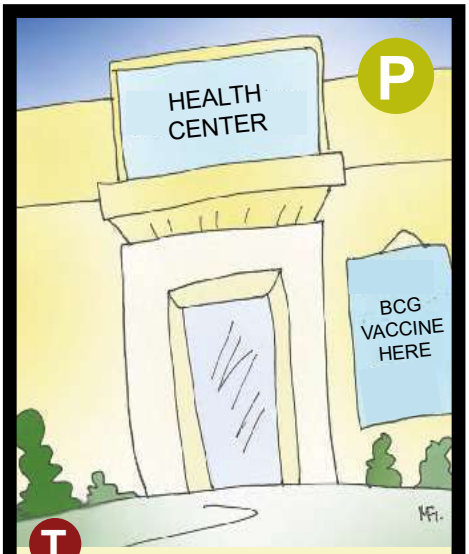
**The name of the vaccine they use aginst me has three letters. Find out which ones they are!**

D

# TUBERCULOSIS

A

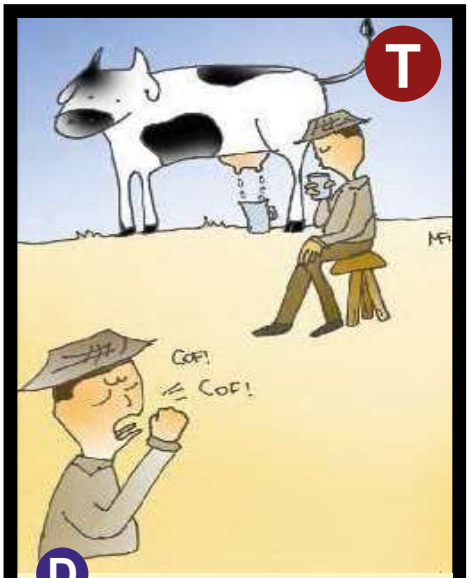
**If you listen to part of my name you might think they're talking about that singer Michael...**



P

T

**My favorite transports are: not pasteurized milk from sick cows and spit from sick people.**



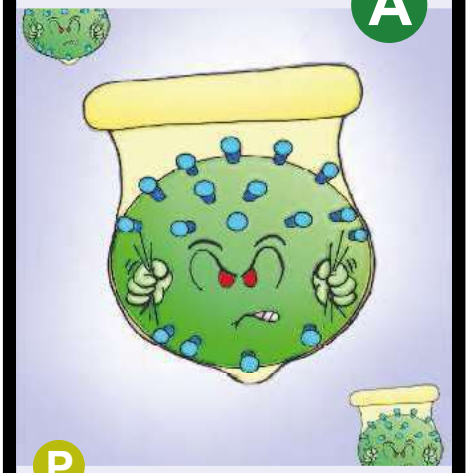
T

D

**+R+ -BE+ -CK+SIS**

HIV

A



P

I'm stuck in a real hefty kind of preservatives...Darn it!

D

AIDS

(Acquired Immune Deficiency Syndrome)

A

I am well known by three letters!

P

T

...making love without a condom.

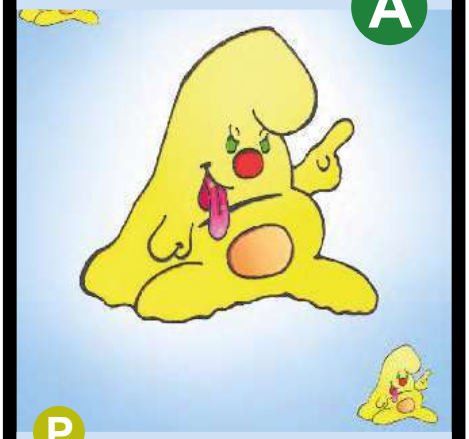
T

D

I'm considered the most evil disease of the century!

*Entamoeba hystolytica*

A



P

Soap and treated sludge are my mortal enemies!

D

# AMEBIASIS

A

I use the movement of my body to capture nutrients. I look dumb but I'm very smart!

P

T

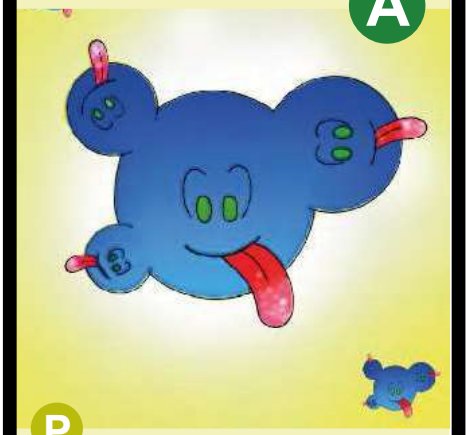
Contaminated water is my favorite place to swim and rest.

T

D

*Candida albicans*

A



P

Mommy's care will make me vanish!

D

# CANDIDIASIS

A

Look at my cute cubs budding around me: aren't they pretty?

P

T

I can live very well with my host... I turn out to be a problem when they lose their defense weapons and become weak.

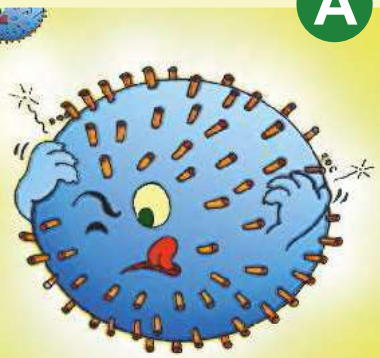
T

D

I wonder why they say I'm candid.

*Varicella zoster*

A



P

I cause no harm to little children,
only tiny little wounds.
I'm bad to unvaccinated adults.

D

# CHICKENPOX

A

What a terrible itch!

P

T

I jump from one human
to another!

T

D

+ P + - B

*Trypanosoma cruzi*

A

P

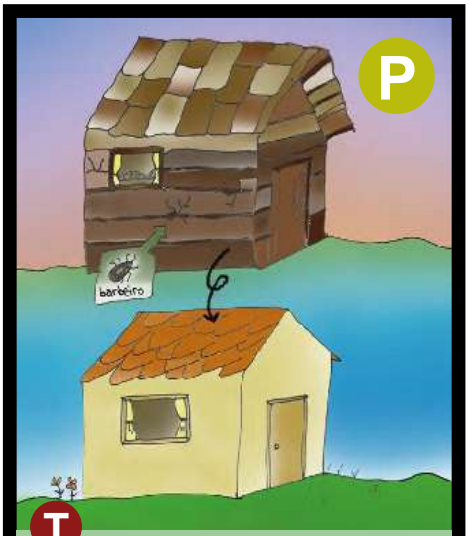
If they exterminate the kissing bug I'll be completely lost!

D

# CHAGAS' DISEASE

A

I'm very clever. I can get to one's heart when an opportunity knocks.

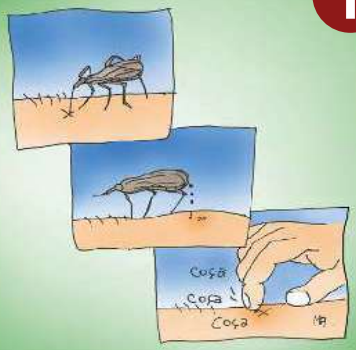


P

T

I hide in my host's feces but I change my address when it bites somebody.

T



D

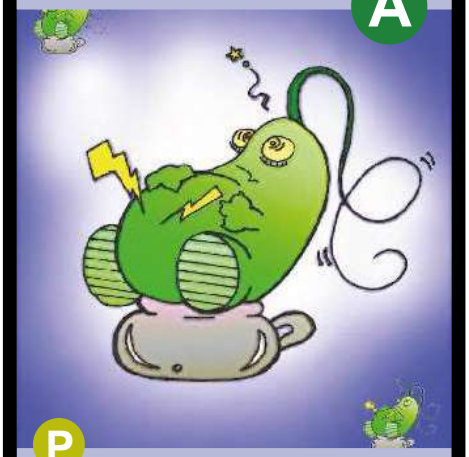
- ir +

- t + s'

+ Disease

*Vibrio cholerae*

A



P

Soap, chlorox, vinegar and heat are my rerrocious enemies!

D

# CHOLERA

A

I'm loosing a lot of water and energy. What a terrible stomach ache!

P

T

Some of my seafood favorites are oysters and raw fish in general!

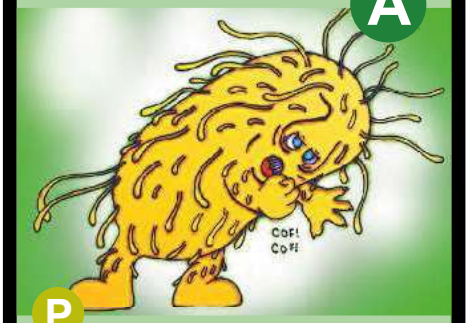
T

D

-eese+ -d-l+ era

*Bordetella pertussis*

A



P

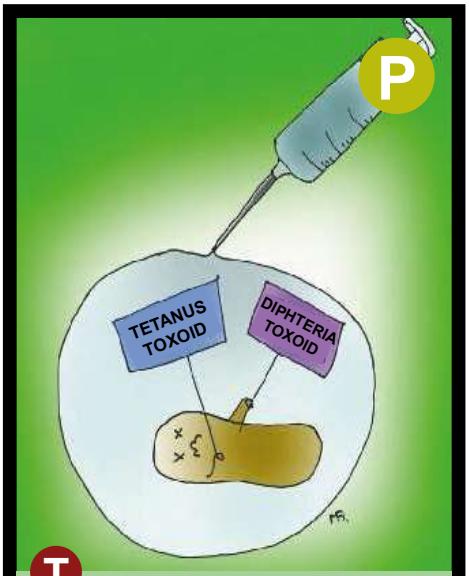
I have two very close friends: Clostridium and Coryne, our toxic products, when treated well are always together to protect humans against diseases as tetanus, diphteria and whooping cough.

D

# WHOOPING COUGH

A

I've never learned other words, only cough...cough...cough

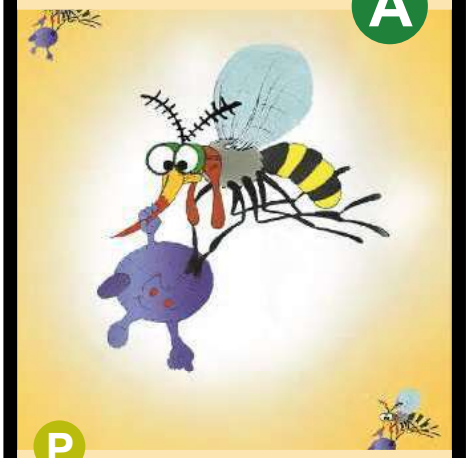


Cough pits take me from one place to another.

WH+ -MN+P+ -K
+ -W+UGH

*Flavivirus*

A



P

If people get rid of all stagnant water, my host Aedes will not survive. Then I'll be lost!

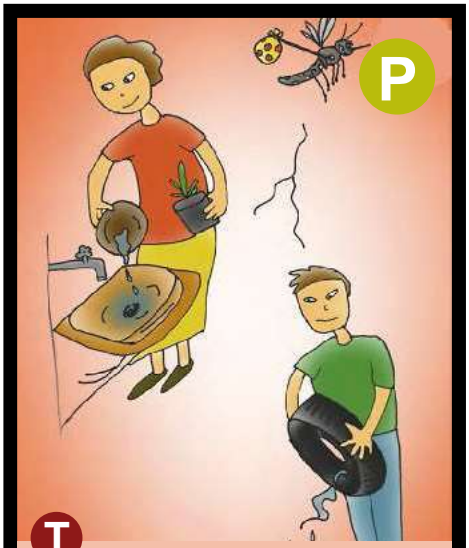
D

# DENGUE FEVER

(BREAKTONE FEVER)

A

I enjoy flying with my winged pilot, his name is Aedes.



P

T

My host Aedes loves stagnant water. I move quickly to a new house when he bites someone!

T

D

-itar+

- gg

Influenza virus

A

P

I'm a deadly virus which weakens old and unprotected humans!

D

FLU

A

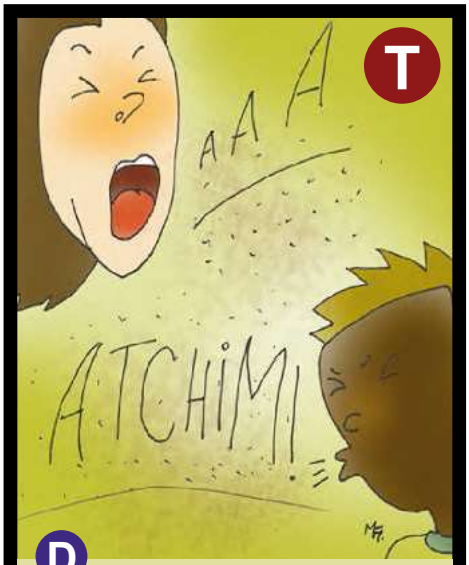
I'm a very "influential" virus and in all sense sociable!

P

T

I could be called the "A-tichoo" virus!

T



D

What makes you a-tichoo: clue, blue, glue or flu?

HBV

A

P

Oh! This new vaccine prevents me from visiting my favorite target! It looks like a sombrero but it is a lovely liver!

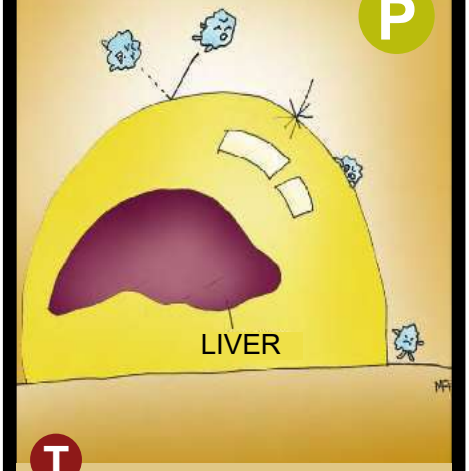
D

HEPATITIS B

A

I'm a virus with big cheeks.

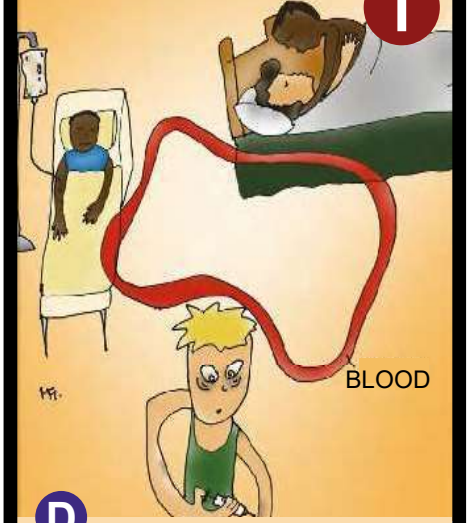
P



T

Moving from one place to another is easy: I take the bloodstream just like my friend HIV.

T

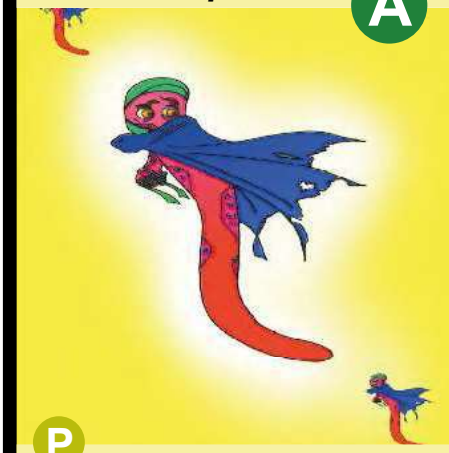


D

The hepatitis B vaccine can protect you!

*Mycobacterium leprae*

A



P

If everybody starts washing hands with soap and water, I will definitely lose this game!

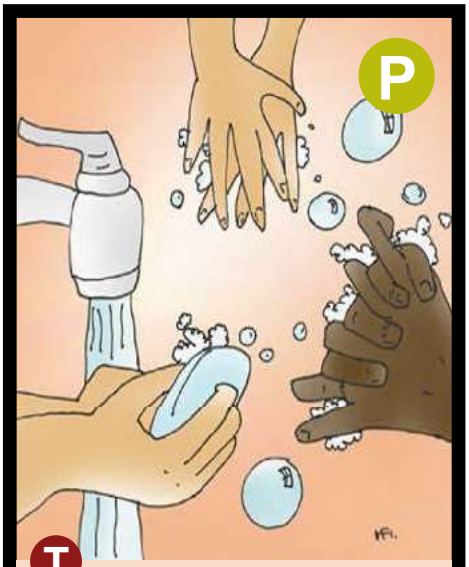
D

# LEPROSY

(Hansen's disease)

A

Don’t I look like Superman?



P

T

When I want to escape I like to go through the nose!

T

D

When I was discovered I was named Hansen’s bacillus.

*Leptospira interrogans*

A

P

Garbage in the carbage can? Where will the rats go? And what about me? The rain water will wash me right down the gutter!

D

# LEPTOSPIROSIS

A

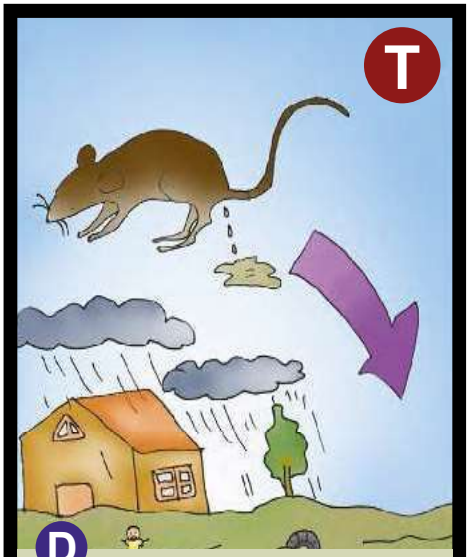
I'm a great diver!

P

T

I'd rather live in rats but when they pee I get a ride and swim in the flood water.

T

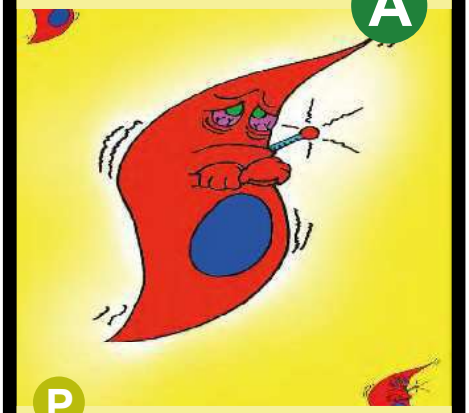


D

If you don't want to have leptospirosis, stay away from flood water!

*Plasmodium maraliae*

A



P

**Wow! I've just escaped from that poison! Now this mosquito net is keeping me out, I'll give up.**

D

# MALARIA

A

**Fever, sweating and trembling! I'll probably lose weight!**

P

T

**Where is my friend Anopheles? It used to give me rides.**

T

D
